### \*Legacy Product - Limited Availability\*

From 2007-2011, the Ranger X rugged handheld computer was purchased as a powerful tool for mobile workers around the world. The Ranger X computers featured an alphanumeric keypad, two user-accessible CompactFlash (CF) slots and one Secure Digital SD/SDIO slot for peripheral devices and additional storage. Embedded Bluetooth and 802.11 (wLAN) were optional features on some units.

To support owners of the Ranger X rugged computer, Trimble MCS is continuing to offer the full suite of accessories.
